

4-6 August 2010: NSIC Ground: Okhla Industrial Area: New Delhi

POWER REQUIREMENT

We give below our requirement for connected power load and lighting load and agree to pay at flat rate of Rs. 3000/US\$ 75 per KW for the fair duration. We have noted and accept our liability to a penalty of 30% on the total charges for any violation during the Exhibition.

1) Raw Space

(i) Indoor Raw Space KW

2) Built-up Space

..... KW

Total KW

Note:

1. Normally organizer arrange only single phase line for requirement up-to 3 KW. In case you need a three-phase connection specify the same.
2. Available of power in single phase is 230 V and 400 V in three phase +/- 10% with Frequency 50 CPS +/- 3%
3. For billing purpose electricity will be calculated at 1 kw per 1 sqm space booked (both indoor & outdoor) if power requirement is not given.
4. Organiser will provide electricity only for lighting for Built-up Stalls. Exhibitors will have to apply separately for demonstration of Machineries mentioning the connected load of the machine.
